

K-LOVE (96.9, 104.3 and 102.3) is such an inspiration to my family and friends. I have told so many people about it, people who have experienced hardships in life and need encouragement. K-LOVE ministers to the community and nation in a big way by playing family-friendly contemporary music with meaningful words and positive influences on our children and teens. The broadcasts are uplifting and informative and the news is news you just don't hear on other radio stations or television. It would be a HUGE detriment to our family, local community, and the nation to lose this beloved station in lieu of an LPFM broadcaster providing other programming. PLEASE don't take away my K-LOVE station!
